MEAS WINS Club Award--Max, the Mechanical Engineering and Aerospace Science Club safety and anti-pollution experiment won the club award in the engineering fair last week. The 1972 Gremlin is nearing completion of the conversion process for entry in the nationwide urban vehicle design competition. The car's combustion system has been altered for the car to operate on natural gas, an anti-skid braking system has been added and a bumper system resistant to moderate speed impact has been developed. The car will compete against 80 others in August of the Gen Motors proving ground in Milford, Mich.

Breakdown Shows Grade Differences

A breakdown of grading by college and by upper and lower division was obtained by the FuTure this week in response to a request by College of Education Dean Clavin C. Miller.

According to Miller, an earlier grade list summary issued by Academic Affairs, which showed Education to have a much higher percentage of "A's" and "B's" than other colleges on campus, "was not a valid comparison."

"We teach almost exclusively upper division courses," said Miller, "unlike the other colleges on campus. You assume that students who are enrolled in upper division courses are more specialized. They have been around for three years, they are experienced and skilled and it is only natural for them to do better."

'Brewer And Shipley' To Appear At Picnic

"Brewer and Shipley" will replace "Mandrill" at the annual FTU Student Government picnic Sunday at Lake Claire. The two folk vocalists made the song "One Toke Over the Line" popular.

The picnic, costing \$9,500 for food and entertainment, will feature the bands "New Days Ahead," "Heaven," "Jeffrey Arthur and Friends" and singer Linda Hoover. There will be continuous music from noon until dusk. Food will be served between 2 p.m. and 5 p.m.

Approximately 2,000 of the 2,250 free tickets had been given away May 10-12. If any tickets are left, they can be acquired at the picnic by students with their I.D.

Each student is limited to two free tickets, but are allowed to buy tickets at 75 cents to cover additional food costs. Tickets at this price are available at the Student Government office on the second floor of the Library Building.

Joanne Puglisi, SG programs committee chairman, said, "You do not need a ticket to listen to the music, but you must have one to eat." Swimming and canoeing will be available.

There will be no parking allowed at the lake site on the day of the picnic. Persons are asked to park on

The new grade list summary issued this week did show that there are some substantial differences in grade percentages when upper and lower divisions are considered.

Education remained about the same with the 40.3 per cent "A's" originally reported being only slightly lower at 38.9 per cent (36 per cent lower division and 39.2 per cent upper division). The greatest difference was shown by Humanities and Fine Arts with 33.1 per cent "A" in upper division and only 22.9 per cent lower division. Social Sciences also showed a

Education Board Approves Visitation

A new policy permitting visitation for students under 21 years of age was unanimously approved by the State Board of Education at its May 11 meeting. The revision had earlier been accepted by the Board of Regents.

The policy requires parental permission for visitation for students under 21 and allows all students to reside in non-visitation areas upon request.

Resident students voted on the measure May 11 and a majority favored the new plan. The new visitation rules are scheduled to go into effect by beginning of summer quarter.

An alternate graduation time 7 p.m. June 9, has been set by the Executive Committee in case the ceremony that morning is rained out. The addition of another time was in answer to recent student dissatisfaction with commencement plans.

If the second ceremony is also rained out, graduation will be permanently cancelled and diplomas will be mailed to graduates.

Seven students, four of whom represented the engineering graduates, attended a meeting held Tuesday to hear complaints and suggestions.

Committee chairman W. Dan Chapman pointed out that caps and gowns will be returnable to the bookstore if graduation is cancelled. This statement was contrary to information published last week although the original information was received from the bookstore.

Bookstore manager Ian Maxwell said that gowns will not be returnable if they are used or if any part of the ceremony takes place.

The committee members retraced their steps in determining the specifics of graduation for the students present. The committee was formed last fall and was required to work around the June 9 date, since it had been previously set. Committee work on the spring graduation began in early May.

The location was decided upon unanimously by the committee members after research into inside locations, weather probability and previous student response.

The suggestion of an on-campus

Debbie Jones Elected Head Of VC Board

Debbie Jones, a junior in the College of Humanities and Fine Arts, is the new president of the Village Center Board. Also selected at the Thursday, May 11, meeting were Wanda Russell, secretary, who is the first non-student to hold an office on the board.

Miss Jones is a new board member, although she has been active in other FTU activities. Majoring in theatre, Miss Jones has been in major theatre productions, and assisted in props and lighting for VC's Kaleidoscope '72 musical "Fantasticks." She was freshman senator from Social Sciences in 1969 and 1970, and governor of Social Sciences in 1970 to 1971. During the same time, she was a member of the President's Council and worked on the VC Inter-Disciplinary Committee.

Mrs. Russell has been a board member for four years. She became eligible for office this quarter when the VC constitution was revised, allowing all members to be eligible for office. Mrs. Russell is also program director for the center.

VC's five departments have selected their staffs for the coming year. Board members and their departments include Arts, Jim Knapp, Jim Pierce, Craig Smith and Vernon Cramer; Education, Andy Maynard, Nannette McLain and Scott Laing, Less Hallock and Jerry Frey; Leisure, Karen Gay and Linda Eastman; Publicity, Sheila Wright, Bob Ryan and Steve Belding.

FTU, Orlando, Florida

May 19, 1972

Alternate Time Slated If Graduation All Wet

location came from several students and administrators. Additionally, all inside locations other than the Orlando Sports Stadium were determined inadequate because of size.

Chapman estimated that 550 of the 650 graduates would be present at the ceremony, necessitating space for approximately 6,000 people.

This narrowed the choice down to the Orlando Sports Stadium or

When asked about the necessity of cancelling the ceremony in case of rain, committee members explained that it probably could not be rescheduled because of the rental of 6,000 chairs for the on-campus ceremony. This decision was later changed when the Commencement Committee recommended to the Executive Committee that an alternate time be scheduled.

The major complaints of the student representatives were the time of graduation and the idea of cancelling the ceremony. One engineering senior explained that the morning ceremony would conflict with the attendance of parents and friends who would have to take a day off from work. He also suggested that the probability of rain after 6 p.m. is similar to the probability before 11 a.m., which was a major factor considered in the selection of the time and location.

(Continued on Page 3)

W. DAN CHAPMAN

campus.

The Sports Stadium was eliminated because of problems and complaints over last spring's graduation ceremony held there. Many guests left immediately after their graduate received his diploma and others frequented the vending machines, causing additional disturbance, according to committee member George Rendulic.

Dr. William Grasty noted that he received 19 telephone calls after the spring graduation "guaranteeing a riot if it (graduation) was even held there (Sports Stadium) again."

Advisement Monday

Advisement for summer quarter classes for all currently enrolled students will begin MONDAY, and continue through Friday. Advanced registration will be held Wednesday through Friday in LR 108. Registration by appointment will begin at 9:30 a.m. Wednesday and Thursday, and at 1 p.m. Friday. All fees must be paid no later than June 19.

THE DELTA Tau Delta tricycle entry proved to be an early threat in the competition with his unusual tricycle. The contest, part of last week's Greek Week festivities, was finally won by Phi Alpha Epsilon Fraternity and Delta Delta Delta Sorority.

FuTure Editorials

Others' Rights Vital

IT AMUSES us to note the problems on a few other campuses in reaction to President Nixon's blockade of Viet Nam. They are varied, and quite different from the reactions of a few years ago.

Regardless of the reasons, most students no longer are willing to place their education in jeopardy by taking over school buildings and destroying property. On some campuses, there are even student groups working against that minority which still clings to the old methods.

But our main interest turns to the disturbances in this state which have caught national attention. The troubles at the U of F and South Florida make us doubt the judgment of some of our students at those schools. At the U of F last Wednesday, this antiwar faction requested and received permission to shut down part of Highway 441, which runs through Gainesville. The only stipulation was that the street be cleared by 6:30 p.m. When the appointed hour arrived, the student leaders tried to move the groups from the street. Many complied, but some, evidently feeling that a demonstration without violence was senseless, announced that they rejected student leaders, and announced their intentions to stay. They even considered the student leaders, who had made the agreement originally, as "establishment pigs." The ensuing melee is history.

AS INDIVIDUAL Americans, we all have a right to disagree with national policy. We all have a right to voice that disagreement. We all have a right to protest the policy, but it is a delusion of a naive fringe to feel that the right extends to the infringement of the rights of masses.

One of the students arrested last week in Gainesville was quoted in the "Florida Alligator" as saying, "Nixon has become a dictator. The president should listen to the people. He's not doing it. I resent it. I resent it enough to get arrested for it." We would be sickened if we felt this attitude was prevalent throughout the state. Its author seemed to overlook two facts. First, he feels he speaks for all the people when he says Nixon doesn't listen to 'the people.' Perhaps the President listens, but disagrees with his feelings.

Secondly, the author seems to feel the way to change a national policy he does not agree with is to break a civil law and be arrested. Somehow the logic escapes us.

WE WISH it were as easy a decision as the demonstrators would like us to think. However, world policy is generally not as black and white as some decisions. To feel Nixon would like to stay in the war is, in a word, ignorant. The single most politically expedient thing Nixon (who is in an election year) could do would be to withdraw all forces from Viet Nam and let the chips fall where they may. It would seem to us, in light of this, that his decision was motivated more by concern for the nation and the world than by concern for the next election.

Do not re-elect Nixon if his policies disagree with yours. That is your obligation as a voter. Voice your dissatisfaction by working against Nixon; make it your business to see that he is not re-elected. If you do not care for that type of voice, then you disagree with the basic philosophies this country was founded on. That is still your right. Find a man who agrees with you and elect him, and change the government within its own structure. But, we beseech you, do not in the process take away the rights of others to hold differing opinions.

A Matter Of Opinion

By Gabriel Yanni

For a while I have been griping about the impotence of our Student Government, but has it ever occurred to you that the students on this campus may be one of the reasons for such weakness? I am not defending the Student Government or retracting any past opinion I have stated, but one cannot help realizing the stupid dullness in which we seem to accommodate ourselves day after day. A Student Government cannot fully function unless it has the support and trust of its student body. The only way changes can happen around her is if you show that you care and are willing to dare change with them.

We may lose the graduation festivities, whatever they are, because the residents of the "glass house" have decided to entrust themselves to the caprices of the weather, which is as unpredictable as they are. What have you done, or what are you planning to do, graduating seniors, regarding such a decision? Are you simply going to accept it and feel better, for which I really would not blame you, considering the total apathy you have shown throughout the year.

What do I propose? Under the auspices of the senior representatives of your colleges, demand from the administration more respect and consideration regarding your graduating class. Achieve something before you leave this campus, even if it means upsetting some of the high authority that has "guided" your steps toward a higher educational achievement, not to mention whatever they have added to your social life. . .

And to all of you who shall remain here until you graduate, unless you give up or have the wrath of our "high priest" fall on your innocent heads, support your Student Government to make it more active and more powerful to achieve your demands, because it is all we have in this place to counterattack some of the injustice that has happened before.

There is a lot to be done around here and it will not be accomplished unless you grow out of your cocoons and stop having others do all the work to give you more positive power, while you sit back and enjoy whatever turns you on. While the rest of the youth dared express itself regarding the present political engagement your President has taken, students on this campus went along their daily monotony as if they are the only people alive on this planet. Well, let's break some of your preconceptions. You are only alive and exist merely because you breathe and because your presence or absence would simply be either more or less pollution, depending on how you look at yourself, or how I see you.

Letters To The Editor

Wallace Shooting Termed 'Horrid'

Editor:

Monday's assassination attempt on Governor Wallace can only be viewed with horror. It is a sad state of affairs when a candidate cannot meet his followers without having to be in fear of his life.

One of the cornerstones of our country is the right of the people to speak out openly and freely and without fear. No matter how much I disagree with Governor Wallace's opinions, I still feel he has as much right as any other man to state his views. It begins to appear that the assassination of President Kennedy has, in effect, declared "open season" on candidates and office holders, a situation which can only be viewed, at best, as intolerable. The gun, or any other type of violence, just does not have a place in our system of political selection.

My sympathies go out to Governor Wallace, his family and supporters and I fervently hope he recovers from this horrid incident completely. I pray this type of thing never occurs again.

Pete Reynolds

Lebanese Maids Evidence Offered

Editor:

This is in response to a letter which appeared a few weeks ago criticizing a statement made by Gabriel Yanni regarding the availability of maids in Lebanese families. I would simply like to refer the author of the letter to a statement in "Tripoli, a Modern Arab City," by John Gulick, Harvard University Press, page 130. It reads, "Middle and upper class householders, Christian and Muslim alike, insist on domestic help. Over half of the American University of

Beirut sample reported at least one maid living in their home, not to mention the servants who came in during the daytime."

A Student

'Pop' Frustrated By Many Issues

Dear Editor,

Bitch, bitch, bitch.

With all the things one could complain about here, Daddy Nature is troubled as to whether he should point out this week that the planned June graduation is an outrage, or that library fines here are another outrage, or that the biggest outrage of all is the apathy that makes this Un. U.

Caring not what anyone else thinks at present, or if they ever will, I yield to the silent senator from the state of no care in hopes that we might neither progress or regress.

This week I give not a damn, because no one else will, BWANYA.

Father Nature

'Underground' Idea For Paper Nixed

Editor:

I write this in response to Mr. Yanni's column of May 5. Mr. Yanni suggests an underground campus newspaper for the purpose of "infiltrating some motivating ideas."

This thought has been in many people's minds since FTU was first founded, but there are three major stumbling blocks to the idea.

First, a privately incorporated newspaper could not be financially self-supporting on a campus as small as FTU's. Even with donated labor, the printing costs alone put it beyond the realm of any but the most well-to-do students.

Secondly, a newspaper owes it to

its readers to put out as interesting a paper as possible. Being a newspaper does not automatically put you out of the bounds of publishing occasional special feature articles, or even creative stories and poems. It therefore seems to me to be the FuTure's obligation to provide controversial and possibly even radical stories and ideas so that the readership has something to sink their teeth and minds into.

Thirdly, there is an Orlando underground newspaper called "the Watcher" which is actually being sold on the FTU campus. This paper is rapidly achieving excellence in its own field. It contains a wide variety of news, views and ideas on the local, state, national and international levels. "The Watcher" is fast becoming a sounding board for all radically innovative ideas and a communication medium for all brothers and sisters in Central Florida.

I would like to add a last thought that as long as people feel they are fulfilling their duty by merely voicing their opinion to confidential friends, and not standing up and shouting their ideals and beliefs, FTU will continue to be the den of apathy that it is.

The weather prediction for June 9 is a five per cent chance of rain before noon and a 35 per cent chance after noon.

Academic Eligibility Requirements To Be Coordinated By SG Bill

In order to coordinate differing academic requirements for student leadership, SG Senators Hunter Potts and Lee Constantine have submitted a bill establishing a set of requirements for responsibility in FTU activities.

First written in March, the bill is an attempt to end some of the confusion caused by differing requirements found in current and past FTU handbooks and bulletins.

The bill as it read Tuesday, May 16, set the following requirements:

- Students must be enrolled for nine quarter hours each term of the academic year, and must be degree-seeking, except SG president and vice president, who are required by the SG constitution to be enrolled for seven quarter hours.
- Students must have a cumulative average of 2.0, and must not be under any disciplinary action.
- Students who do not qualify may submit a written appeal to the Office of Student Affairs.
- Clubs and organizations will be able to raise but not lower, requirements, subject to SG approval.

However, according to Potts and Constantine, the bill was to have been amended during its second reading at yesterday's SG meeting. The changes will eliminate the SG executive exception, and students will be required not to be on academic probation or under disciplinary actions of restrictive probation, suspension or expulsion.

The revised bill will receive its second reading Thursday May 25.

Organization officeholders according to the March 1969 bulletin were required to have a minimum of 12 enrolled hours per quarter, to possess a cumulative GPA of at least 2.0 and not to be on academic or restrictive disciplinary probation. The 1969-70 and 1970-71 bulletins were identical in these requirements, but the 1972-73 bulletin added that students must be degree-seeking and have made a minimum of 2.0 during the preceding quarter.

The present bill, according to Constantine, coordinates these requirements and those posed for SG elections to create one guideline for prospective campus leaders. As it stands now, Constantine said, a student could be qualified according to one set of standards and be elected to office, yet not be recognized by Student Affairs.

Honors Ceremony Set For May 30

The third annual Student Government-sponsored honors and awards ceremony will be held May 30 at 11 a.m. on the Village Center Green.

All major student organizations have received award information forms from the Village Center and will present awards to members of their organizations and to other members of the FTU community.

The format of the program will be similar to last year's and will include three basic categories. Each of the major organizations will present individual and group awards. Student Government will present specific awards to various clubs and organizations as well as their own internal awards, and overall awards, such as Who's Who, will be given to individual students.

This ceremony has in the past included the outstanding Greek man and woman award, the outstanding professor award, several humorous presentations and awards to individuals who have made contributions to the university.

Law Office Set Up To Give Free Aid

A group of Central Florida attorneys are volunteering their services to supplement the free services of the Orange County Legal Aid, Inc., which provides free services only to residents of Orange County.

Known as the Neighborhood Law Office of Central Florida, these attorneys are providing representation and legal counseling to "...those in the community who are otherwise unable to secure the services of an attorney."

This nonprofit organization is located at 106 W. Central Blvd., Orlando, and is open 10 a.m. to 4 p.m. Monday through Friday. The phone number is 425-5003.

Charter Faculty Member Plans 'Rocking' Retirement

By Weber Ivy

When Gerald Ward, an associate professor in civil engineering, retires soon, he will have retired for the fourth time in his life. He has retired once as a civil engineer, another time as an Air Force colonel with 20 years of service, and last an educator at Northwestern University. A 1968 charter faculty member of FTU, Ward has reached the university's mandatory retirement age, and may yet start a fourth career, but is not sure of his future plans.

In speaking about his past Ward said, "There is no comparison between today's job shortage for engineers and the one I faced when I graduated in 1929, in the teeth of the depression. To make a living, I joined the McGraw-Hill Publishing Company and became the editor of the National Highway Magazine. In 1935, I joined the Air Force, and in 1951 I joined the staff of the NATO commander of Central Europe, General Lauris Norstad, and took charge of the construction of more than 100 military airfields in Western Europe.

"By the way, all engineers up to the 1790s were military," Ward added. "It was only with the founding of the Institute of Civil Engineering in England in 1832 that my field was clearly defined. And today, in spite of the specialization that has gone on since, the field of civil engineering embraces such diverse areas as city planning, water supply and drainage, surveying and environmental engineering, to name a few."

Between his retirement from the Air Force in 1955 and his coming to FTU four years ago, Ward taught 12 years at Northwestern University. "You would naturally ask me how it compares with FTU, and I would tell you that the comparison is unfair because Northwestern is much, much older, and selective just because it is private."

When asked what advice he would give to a young graduate in civil engineering, Ward replied, "I hesitate to advise them, except to tell them to find a job they love. I've been lucky, because a survey I read says that 80 per cent of American men are working at jobs they hate."

Ward holds honors from the government of France and King Peter of imperial Yugoslavia for services performed for those countries during World War II and the postwar years. He is listed in American Men of Science and Who's Who in the South, and has lifetime membership in the American Society for Civil Engineering.

When asked about his retirement plans, Ward said, "My plans are now the same as those of a retiring general friend of mine. He said he would go to his home in California

and sit in his rocking chair for three months. After three months he would start rocking."

"THE ELUSIVE HOUR GLASS"

Why desecrate life's precious moments
vainly searching for my watch
Its silent tick-tocking
will not arouse a drugged conscience
Untiring dedication and boundless
patience alone
will purge me of sterility
Too often the treachery of time
binds me to mundane desires
and those wasted minutes become
hours of distractions:
a fast drive to the office
appointments to schedule
phone calls to make
a later dinner date
an early morning visit
and a long restful weekend
And, unaware, I become bound
to this maddening vertigo,
as a drunk to his bottle
And together, sweetly,
our consciousness
our creative imagination
our identity
perish unfulfilled
in the quicksand of an elusive hour
glass

Readers Theatre Gives Local, FTU Readings

Students in "Studies in Interpretation with Emphasis on Readers Theatre" at FTU have given presentations throughout the local community. They have appeared at junior high schools, churches, hospitals and other places.

Mrs. Frances L. Johnson, a visiting professor of communications and theatre at FTU and instructor of the course, commented: "They do it as part of their studies, and they are doing a good job." Bill Dumas, a graduate student in communications is the co-ordinator of the program.

Five students gave one of the presentations in AD 162 at 2 p.m., Monday. Of the many literary topics covered by different groups in the class, Monday's topic was "War" and the participants were Randy Molner as a newsman and war correspondent, and Jeff Ringer, Jeff Brooks, Ken Dibble and Wayne Evans, dressed as protestors in T-shirts and blue jeans.

Molner wore a suit and remained seated through most of the presentation. Ringer, Brooks, Dibble and Evans wore black arm bands to signify protest.

One of the central lines in the presentation of alternating speeches by the cast was: "Do not tell the children the old lie: 'It is both sweet and fitting to die for one's country.'"

The group recited the song, "Requiem Eternum," originally recorded by "The Association." The newsman's concluding statements concerned America's desire for law and order at home while disregarding the people of Vietnam. "Johnny Comes Marching Home" was sung and faded out.

The five men presented the same script with the additional use of film slides at Titusville High School Wednesday.

The class will perform a contemporary church service at John Calvin Presbyterian Church in the Oak Ridge section of Orlando, Sunday.

DR. WALTER Gaudnek, Florida Technological University, presents model boats for the Olympic Art Marathon project to (from left to right): Dr. Hohenemser, City of Munich's Cultural Chairman; Mr.

Senf, Director of Munich's Modern Art Museum; and Mr. Promoli, Director of Administration of Cultural Events on the Olympic Grounds, Munich.

Blow Your Horn Is Universal Situation

By Fran Elliott

"Little Boy Blue, come blow your horn, the sheep's in the meadow, the cow's in the corn..." but Alan Baker is busy with his wild bachelor life style and doesn't have time to pay enough attention to his mother and father. In addition, he has been a bad influence on his innocent young brother, Buddy. Like "Little Boy Blue," Alan needs to "come blow his horn" and get back on the good side of his parents. This could easily be done by getting married to a nice Jewish girl. After a few encounters with his parents and a few poorly planned dates with his girlfriends, he gives in to their desires. The ironic outcome, however, is that brother Buddy takes over where Alan left off!

"Come Blow Your Horn" Neil Simon's first big comedy success, but certainly not his best, is now playing at Sebastian's Dinner Theatre. (By the way, along with reasonable prices is some outstanding food, thanks to a new fine chef.) The play is not up to par with any of Simon's later comedies, but it does provide an entertaining evening. The situation is a rather universal one and has very funny lines. However, Act I is somewhat slow in presenting exposition for the action in Act II and Act III. The last act, fast paced and fun, is dependent upon good timing from all six members of the cast. Unfortunately, this was lacking in this particular performance, but on a good night this production could excel in this quick moving, interacting scene.

The major role of Alan, the 33-year-old, unmarried "bum" of a

son is played by the appropriately handsome and debonair Norman Riggins. He has a smooth, pleasant voice, and it seemed a waste not to be hearing him in a singing role. Somehow, his lines on this night seemed rough. He definitely fits the role perfectly though, so the character goes over well. Likewise, Mike Mazes as the 21-year-old, "scotch and gingerale" drinking brother, Buddy, jumps nicely from the innocent, sweet, nervous boy in the first two acts to the carbon copy of the cool Alan in Act III. The only distraction from his good characterization is that the audience sees more of his back than his facial expressions. Eldred Carpenter doesn't seem quite as at home in the part of the old-fashioned father as he has been in most previous roles, but he adds to the humor by strong characterization.

The women are all adequate in their roles. Connie Foster as Mrs. Baker underplays some funny bits, but comes across because she has some of the funniest lines, even though they were delivered choppy in places. Sarajane Dehner plays the sexy, dumb broad while Dreama Perry as the girl Alan finally can't resist comes out on top of the female parts.

Pegasus '72 Edition To Appear By Aug. 1

This year's Pegasus may be the last hadcover edition, and it's coming out by August 1, said Ron Page, one of the editors of the yearbook.

About 770 copies of the book have been ordered this year by the staff, who have expanded its contents from simply senior portraits and on-campus photographs to a record of the past year, including a section of important contemporary persons called "Men of Our Time."

This was a difficult year for the Pegasus staff, and it was the first year that any of the deadlines was missed. The deadline missed by the staff was only a self-paced guideline, however, and the final deadline date, May 1, at which all materials must have been sent to the printers, was met. "This one

RON PAGE

was really important, because for every day past the final deadline we would be late, the yearbooks would be delayed four days," Page said.

Staff difficulties also troubled the Pegasus. Page, who edited the first two issues of the yearbook, and Maryke Loth, who has been a staff member of the Pegasus for the first two issues, replaced Susan Conner at the end of fall quarter as editors of this year's edition.

The 1971-72 edition which covers all four quarters is the culmination of three years' experience, Page said. Although he said it was hard for a yearbook to be unique, since annuals are published in junior high, high schools, junior colleges and colleges, the Pegasus has managed to supply original elements in the tradition.

"Last year there was Krenn's art print. This year we have a white cover with color photos. The cover is laminated plastic, and we're buying plastic covers for the books," Page said. There will be a four-page, three-foot full color foldout in this edition.

Next year, Page said, the Pegasus may be a softbound book, smaller, yet available to all students. He said he did not think that all 7,000-8,000 students would be photographed, and expected that the policy of limiting the portraits to seniors would continue. Cost is the main reason for going softbound, Page said, adding that this year's edition cost \$25,000 to produce.

Places To See, Things To Go, People To Do

FTU Artists Join Olympic Workshop

When the Olympic torch for the twentieth Olympiad is lit at 3 p.m., August 26, in Munich, Germany, it will signal not only the beginning of athletic competition among the strongest and fastest of the world's men and women, but also the opening of "Spielstrasse" (literally, "play-street").

FTU's Art Chairman Steve Lotz, painter Dr. Walter Gaudnek and sculptor Johann Eyfells will be the only official representatives of this or any other American university among the 200 visual, musical and performing artists taking part this summer in the cultural phase of the 1972 Olympics.

The FTU trio will collaborate in creating a waterborne display of mounted canvases and other artwork which will float on primitive rafts on a manmade lake on the Olympic grounds. Gaudnek described this as a kind of ritual in which the bobbing, drifting, even capsizing of the art on the crafts becomes part of the art itself, letting the water, sunlight and wind improvise on their static designs.

Greek Week Games, Contests

Although rain threatened to dampen last week's Greek Week activities, spirits were high as FTU Greeks celebrated their heritage with numerous games and contests.

The Volkswagen parade, which was led by Herbie, from "The Lovebug," was won by Sigma Sigma Chi Fraternity which sported an airplane with Snappy as the theme. Placing second and third were Tau Kappa Epsilon Fraternity and Zeta Tau Alpha Sorority, respectively.

The VW stuffing contest followed the parade and was won by Tyes, with Tri-Delta Sorority and Zeta Tau Alpha placing second and third. Friday's games included an egg toss and sack races. Lambda Chi Alpha Fraternity took first place honors in the egg toss, followed by Phi Alpha Epsilon Fraternity and Alpha Tau Omega Fraternity. The sack race was won by Kappa Sigma Fraternity and Tau Epsilon Phi Fraternity and Pi Kappa Alpha Fraternity placed second and third, respectively.

The ZTA "Zeta Pickers Hillbilly Band" took first place honors in Friday evening's Greek Sing. The Pickers performed two Greek Week-oriented songs and received a trophy. Tyes was awarded a second place ribbon for its "little girl" theme. Third place was taken by Delta Delta Delta sisters who centered their theme around the 1950s. Tau Kappa Epsilon Fraternity was given honorable mention.

Saturday's games began with the traditional chariot race, with ATO winning a trophy for first place and PAE placing second. In the sorority division, Tri-Delta placed first.

The tricycle race was won by PAE in the fraternity division and Tri-Delta in the sorority division. Placing second and third were Delta Tau Delta Fraternity and PKA.

Sigma Sigma Chi proved strongest in the tug of war and was followed by ATO. Tri-Delta won first place in the sorority division. The water balloon toss was won by SSX, followed by Kappa Sigma and TEP.

Tri-Delta was awarded first place ribbon in the string eating contest and KS and TKE placed second and third. The brothers of TKE won the spider races, with Chi Phi Fraternity and KS placing second and third. TKE also won the wheelbarrow race and SSX and TEP took second and third place honors.

Two new Greek games were of special interest. The watermelon eating contest was won by Chi Phi after several minutes of serious eating. Although sororities were not included in the contest, Tyes Sorority sister Angie Rager joined the competition. Second and third place winners were PAE and LXA.

The chugging contest became an interesting spectator sport even if it wasn't too pleasurable to the contestants. However, it was won by ATO, with LXA and PAE coming in second and third.

Trophies and ribbons for the contests were presented at the Greek Party held Saturday night at C Bar Stables. The party featured hay rides, 10 kegs of beer and entertainment by "Myth."

Lambda Chi Alpha members received a trophy for enthusiasm and overall participation. Liz Herbet, a member of Delta Delta Delta received a surprise award, known as "The Horse's Ass" in recognition of several problems she encountered. Miss Hebert ran into the ZTA car in the VW parade, stalled her VW during the parade in the library tunnel, and got stuck in her VW during the stuffing competition. She also received a trophy.

Greek Week chairman Dan Hodges requests that all suggestions and complaints concerning Greek Week be mailed to the Dean of Men's office in care of Hodges.

Photos By Jon Findell, Craig Powell and Ike Spinos

THE WATERMELON could hardly be supplied fast enough to satisfy these fraternity contestants in the watermelon eating contest last Saturday. Winner of the competition was Chi Phi Fraternity.

RACING FOR the lollipop in the middle of the string are contestants from Tyes Sorority and Zeta Tau Alpha Sorority. The object of the game was to consume the string leading to the lollipop in the center before the opponent. After a frustrating battle against several fraternity representatives, Claudia McGee of Delta Delta Delta was victorious.

'Vague Wording' Prompts Vetoing Of Bill Of Rights

"Problems with semantics" brought about the veto by SG President Frank Santry of the recently passed Student Bill of Rights, according to President-Elect Steve Adamick.

The bill, which has been in the works for several months, may now have to wait until fall quarter for further action. "I have a gut feeling that the bill won't be passed until fall," said Adamick.

According to Vice President-Elect Lee Constantine, "There is one chance that the bill may still pass this quarter if all the amending can be completed this week, the bill can be published in the FuTure next week and voted on at the final meeting of the quarter in three weeks."

The summer Senate cannot act on a constitutional amendment, which would mean that the bill would have to wait until fall.

"I am sure," said Adamick, "that even if Frank had signed the bill, it would not have been acceptable to Student Affairs because of the vague wording."

Adamick further explained, "Although the bill was a good idea,

the wording was inappropriate, many pertinent clauses were very vague and could be interpreted

ROTC Detachment Headed By Wilson

FTU was recently assigned an Air Force ROTC detachment under the direction of Sgt. Wilson, sgt. major of AFROTC detachment 159.

Wilson, who was assigned to duty here on May 1, said that the primary source of officers for the Air Force is the ROTC program, and as such, ROTC programs rate a high priority in the Air Force scheme.

Wilson said he feels FTU has an "outstanding campus" with a glowing future. He said his reception on campus has been "most warm."

The Air Force offers many programs of training, most of which are open to women candidates, too, Wilson said. As part of the program, scholarships and book allowances are given. Those cadets enrolled in the professional officer course are given \$2,000 over the two years of the program.

almost any way."

Citing one example of poor wording, Adamick quoted section one, subsection J, of the bill which says: "Students who are of legal age as described under Florida law shall be permitted to possess and consume alcoholic beverages in appropriate places designated by the administration."

According to Adamick, "Under this clause, President Millican might say, 'I deem The Stone and the ABC Liquor Lounge appropriate places for students to possess and consume alcoholic beverages.' This obviously is not our purpose and the bill will hopefully be amended to read 'appropriate places on campus' and be followed with suggestions for appropriate places."

Adamick also quoted several other examples of "sloppy or inaccurate" wording in the bill.

"There may be one advantage to the bill not being passed now," said Adamick, "We can work on it all summer and refine and streamline the wording so that it will be ready for the Senate floor first thing in the fall."

Santry, who was out of town, could not be reached for comment.

Dorm Rules Discussed By Regents Member

Board of Regents member W. W. Hopkins, Jr. visited the FTU campus last Thursday as part of the "regent a month" program. J. J. Daniels was scheduled to accompany Hopkins but was unable to make the trip.

Prior to an interview with the FuTure, Hopkins had attended several meetings, including one with Student Government representatives. During that meeting, Hopkins expressed interest in campus day care centers and suggested that centers could be built in apartment complexes.

Hopkins stated that he had "no opinion" on the recent expulsion of two FTU students for a dorm violation. He said he had no knowledge that it had actually happened and no information about the circumstances. Hopkins said he would not question the administrative decision by checking into the details of the action.

E. W. Hopkins was the only Regent who voted against the recently approved new visitation policy. He felt the policy was "vague" on the facilities where visitation was permissible and that there was a "lack of specifics on supervisory aspects." He added that he felt the plan was not strong enough.

Hopkins anticipates another attempt to abolish the Board of Regents but "would hate to see that happen. The state deserves something more than an experiment." He added that responsible Regents who are removed from political considerations are needed.

Hopkins called the idea that the Board of Regents controls all college funds a "real misconception." He noted that the Regents are limited by procedure and that their policy changes must be approved before they can be put into effect.

Hopkins said he was unaware of the fact that Student Activity Fees pay the bond issue on the new Village Center extension. "It was probably an administrative decision and I will just have to make some inquiries about that."

Hopkins was the third Regent to visit the FTU campus in the nine-month existence of the program. He was preceded by ex-Regent Elizabeth Kovachevich in October and Fred Parker in November. Hopkins explained the absence of Regents at FTU for the past five months by saying, "Of course, we had no visitation policy until just a few months ago, and maybe if Regents attended just 50 per cent of their meetings that would be better than nothing."

Also discussed at the meeting was the idea of eliminating campus housing and making FTU 100 per cent commuter. Hopkins said he had not heard anything about it and would "have to make some inquiries because I would be surprised if that were true. I would be very surprised if the Regents

permitted it; certainly the administration is not going to do it without the permission of the Regents." He added that he was a member of the BOR Facilities Committee and that if any such action was being considered, he would have knowledge about it.

Pynn Elected As Governor By Civitans

FTU Collegiate Civitans returned last week from their 50th annual state convention in St. Petersburg, having for the third consecutive year won the governorship of the statewide district.

A junior communication major, Roger W. Pynn, was elected governor of the 27-chapter Florida District, succeeding Jim McCarty, a senior majoring in business.

Pynn went to the convention as an unannounced candidate for the governorship, and FTU club

ROGER PYNN

president Mike McKinney, a freshman, was elected lieutenant governor -- one of four in the state.

Pynn became the third FTU Civitan to hold the post. Dan Mahurin was the first. Mahurin, who was graduated from the College of Social Sciences' communication department last June, is now a member of the East Orlando Civitan club.

There were nearly 50 collegiate delegates at the three-day convention, and high school Civitans and sponsoring seniors brought the total to close to 500.

Pynn will travel throughout the state during his year as governor, and both he and McKinney will attend the Collegiate Civitan international convention in Nashville, Tennessee, in August.

Faculty Promotions Announced

SDX Installs FTU Chapter Next Week

Sigma Delta Chi, the national society of professional journalists, will be installing an SDX Chapter at FTU next Saturday, May 27. The local journalism society, Sigma Delta, which was formed last year, received approval to affiliate about two weeks ago.

The installation will be held at a banquet during which members will be initiated. Rhea Eskew, southern division manager of United Press International in Atlanta, will be the main guest speaker, and national SDX officers will be present.

Sigma Delta was begun in spring 1971 with 19 members. Sixteen

persons will be initiated into Sigma Delta Chi. The society is oriented toward those seeking a career in news-editorial journalism, whether electronic or print.

Sigma Delta's activities during its first year have been centered around professional meetings. It has sponsored several speakers from the local media, both television and newspaper.

Sigma Delta Chi is open to all interested journalism or

Radio-television majors who intend to specialize in the news-editorial phase of their area.

FTU Splits Double - Header In Season Finale Sunday

The FTU Goldsox ended the season on a winning note by defeating FIT, 7-3, last Sunday at Tinker Field.

The 7-3 victory came after the Goldsox lost the first game of a doubleheader, 5-4.

In the first game, FTU was cruising along with a 4-0 lead through seven innings. FTU pitcher Bill Larsen, in fact, has pitched seven innings of no-hit ball.

In the top of the eighth inning, the first batter to face Larsen

Pitcher Mark Denno made up for his outfield error in the first game by scattering five hits and allowing only one earned run in the second game.

In the third inning, Denno opened with a walk. Gillis was hit by a pitch, and Odom followed with a bunt single. FIT's pitcher couldn't handle Tuttle's subsequent bunt scoring Denno. McCarty then hit into a fielder's choice, the runner forced at the plate. Sirianni then slapped a single scoring Odom and Tuttle.

BILL LARSEN

grounded out. Larsen then hit the next batter and walked the one after that. The following batter struck out. Then he walked another batter. With the bases loaded and two out, the leadoff batter laced a double down the leftfield line clearing the bases. The next batter singled, tying the game at 4-4. The following batter hit a routine fly ball into leftfield. Outfielder Mark Denno misjudged the ball allowing the winning run to score.

FTU scored first with two runs in the third inning. Danny Odom and Jack Sirianni walked. Allen Tuttle hit a fielder's choice. Tuttle stole second putting runners on third and second. Hot-hitting Pat McCarty followed with a clutch single scoring FTU's first two runs.

In the sixth inning, after Tuttle flew out, McCarty doubled. Tim Gillis stroked a single and Larsen reached base on an error by the shortstop scoring McCarty. Doug Hutto then slammed a doubled into rightfield scoring Gillis.

ALLEN TUTTLE

FTU scored three more runs in the fourth inning, two on a single by Odom, and were never in trouble the remainder of the game.

FTU's split with FIT set their season-ending record at 13-18.

SWIMMING POOL

The FTU swimming pool will be closed on Sunday so that it will not conflict with the annual school picnic, it was announced recently by the Intramural department. Also, no pool equipment will be checked out during the day.

SIX FTU varsity wrestlers brought home trophies from last weekend's Cocoa-Rockledge Open. They are Jim Nickson, Paul Allard, John Rouse, Bill James and

Ted Wasley. Seated in foreground is Joe Giccobbe. (Photo by Jon Findell)

FTU Wrestlers Win Six Trophies

The habit of winning proved tough to break for six members of FTU's wrestling squad at last weekend's Cocoa-Rockledge Open, four of whom carted home first-place trophies, while the other two placed third.

The event, sponsored by the U. S. Wrestling Federation, was the first in a series of six statewide meets designed to provide off-season competition for grapplers from school or military teams.

John Rouse, FTU's Olympic hopeful, took top honors in the heavyweight division while Ted Wasley finished first in the 175-pound class. The 160 and 124-pound weight categories were copped by the Jim Nickson and Paul Allard, respectively. Allard, of course, is the state champion in the 118-lb. class. Most wrestlers do add some weight during the summer months.

Bill James, who competed in the 175-lb. division during the season finished third as a heavyweight and Joe Giccobbe also took a third as a 124-pounder.

Buddy Heath, a student in Coach Gerry Gergley's independent study class, wrestled in the 175-lb. class as part of the requirements for that course and took a 1-0 lead before

finally being pinned in the third period. Heath often worked out with the team during the year.

About one-half of the participants were high school grapplers and the other half was evenly divided between college and serve performers according to Rouse.

"These meets will help us stay in shape, and maybe to learn a few moves," he explained.

FTU Holds Chess Meet

Thirteen FTU students are competing for the chess championship of the university. They began play Tuesday in EN 202 and will continue until May 30.

Steve Jung, president of the Chess Club, described the tournament as a "round-robin" one in which everybody plays everyone else, and the winner is decided according to the best record. In case of a tie, a system of points has been worked out to determine the winner.

Richard Aronson and Steve Rajtar are co-directing the three-week tournament. Most of the games will be played by arrangement of the players.

A recently constructed one-room building behind the pool belongs to the PE department and will be the site of future practice sessions for the Knights' wrestlers. The inside of the room is extremely hot and reeks of fresh paint now but will be available for workouts by the wrestlers on their own this summer.

Campus Glances

OBITUARY

Lloyd Allen Towles, 21, a former FTU student, was killed in an accident Saturday, May 13, in Rome, Ga.

Towles was graduated from Boone High School in 1969, and attended FTU for two years. He left FTU as a sophomore majoring in business. He was a member of ATO Fraternity at FTU, and was a manager trainee for Sterchi Brothers, Inc., in Rome.

Survivors include his parents, Mr. and Mrs. Joseph Towles, and one brother, Frank, who is also a student at FTU.

NATIONAL HONORS... The three girls in all white are members of the FTU Archery team, which took national honors at the Intercollegiate Archery Tournament held in San Bernadino, Calif. last weekend. They are, from left to right, Mo Wittcopp, Dena Pickens, and Lyvonne Harvey. The other two girls are from Stetson, and did not place in the tournament.

Lady Archers Finish 5th In National Championships

A three-girl contingent from FTU has captured fifth place in the National Intercollegiate Archery Tournament, held last weekend at San Bernadino Valley College in California. The three girls, Lyvonne Harvey, Dena Pickens and Mo Wittcopp, began the tournament, which was won by Arizona State University, with a flourish last Friday.

The three did their best shooting of the meet that day and were within four points of third place.

However, they hit a slump and fell back into seventh before rallying on Saturday for their fifth place finish.

There were 35 colleges and 164 archers competing in the meet. The

All 6 Starters Will Return For Netters

All six starters of FTU's tennis team will return next season, according to coach Les Wood. However, he will lose Larry Whitacre, Hugh Thompkins, Tom Poppell, Ralph Stone and Bruce Broussard due to graduation.

The team posted a 9-8 record this past season against some of the nation's top tennis powers.

Returning next season for FTU will be Mike DeZeeuw, whom Coach Wood has called, "a genuine all-American potentially." Craig Linton, hampered much of the season with a bad ankle, Charlie Herring, Jim Kelahar, Neil Howard, whom Wood described as "the most improved player on the team," and Bill McGrath, who was injured late in the season in an auto accident but will be fully recovered by the time the next tennis season comes around.

winner, Arizona State University, has won the title for the past four years in a row.

Harvey and Pickens also picked up individual trophies at the tournament. Harvey was awarded for compiling the top score at her particular target in a 900 round. A 900 round is the total possible in 10 different scoring areas. Pickens also won an award for top score at the target. Both girls placed in the top 20 scores in the competition.

Pickens also had three perfect ends during the competition. An end is a round of six arrows. To be perfect, one must put all six arrows in the gold area of the target. From 30 yards away, she had three perfect ends. Wittcopp, who finished among the top 40 archers in the tournament, had two perfect ends from 30 yards. Harvey had a perfect end from 40 yards away.

Pat Higginbotham, team advisor who accompanied them to the tournament, said, "I'm really proud of our team. We did outstandingly considering we have no official practices or no practice facilities."

The team was able to make the trip only because funds were made available by the Women's Athletic Association, the FTU Intramural department and personal contributions.

Byrd Takes First In National Meet

FTU's little Superman, Farrell Byrd, added his biggest and best award to his packed trophy case this past weekend as he won the 1972 Junior National Weightlifting Championships held at York, Pa. Byrd is the first FTU student to ever win a national championship in any sport. In fact, he was the first weightlifter from Florida to ever win the meet in the 10 years it has been in existence.

Lifting in the 132-pound category, Byrd totaled 665 pounds on three different lifts to edge out the second-place finished by five pounds.

In the press, he lifted 220 pounds, well below his national record of 245 pounds but enough to win. In the snatch category, he totaled 190 pounds and added 255 in the clean and jerk class for his 665-pound total.

The meet was open to any AAU

athlete that had a 550-pound qualifying total. A total of 13 lifters, five from Florida, entered the competition.

'Freaks-Fuzz' Game Well Worth The Price

By Shelby Strother

There should be plenty of action and excitement available tonight at C. L. Varner Stadium at Exposition Park as the "Freaks" (a pseudo) all-star team from FTU) will tangle (peacefully) with the "Fuzz," better known as the Orlando Police Department, in a slow-pitch benefit softball game.

Really. No clubs or bricks or tear gas. Just bats and balls and whatever goes along with some good people doing a good thing for a good cause. Oh yes, the cause is to raise money for the Orlando Bonding Fund. If you're not familiar with the term, you're lucky. The fund is used to post the bail for FTU students arrested for possession of liquor or narcotics.

All you have to do is show up for the game... with one dollar. The game starts at 8 p.m. And if you aren't really into the sports scene and "jocks," then come on out at

6:30 p.m. for a nice hour or so of hot boogie music, as two local Orlando bands will entertain prior to the BIG GAME.

So get it on, one way or the

future
SPORTS
NEWS

other. After all, wouldn't anyone pay a buck for the chance to give the old "razzberry" to the shielded members of Orlando's finest? Also, the concession stand will be open for those spectators who come down with the "munchies."

He Ole FuTure HORRISCOPE

By John the Good, Resident Seer

For May 42, 19.

IF YOU WERE BORN TODAY:

Fold back your ears and hold your breath. Withdraw your fingernails and inhale your eyes. Paint your knuckles and shave your nose. Buy three quarts of dew drops and wash your beard. Schmoo. You'd do it. wouldn't you. I'll bet you believe everything you believe, don't you. Did you know that one out of every twelve babies born in this country today is of questionable parentage? Did you know you were number twelve? Freebe.

AQUARIUS:

I suggest that you consult the psychic powers that rule the dimensional inner space. Therein lies the truth of all the universe, and the answers to the Physics test next week. You won't pass anyway, and it might make an interesting excuse to the prof as to why you flunked. It's a thought.

PISCES:

You will win an autographed baseball this week, signed by Freda Payne. You will not recognize its value and will give it to the dog to play with. Next year Freda Payne will play with the Mets and hit 65 homeruns and pitch 42 no-hitters. By then the dog will have eaten her name off, and you will be left with a fuzzy nothing.

ARIES:

Hold you head up high. You will receive great praise and honor this week. You will not deserve it. They will discover it next week and take back all the nice things they said about you and want the prize back. They will then throw you in jail for impersonating a hero.

GEMINI:

I see ill winds forboding disaster. I see you failing three of four finals. I see academic probation. I see expulsion. I see the draft. I see a pregnancy. Whoo, boy, are you in for it!

CANCER:

"Oh Harry, I know I have been unfaithful. I know you know I've been having an affair with the postman and the neighbor's German shepard, but I promise you, if you will take me back I will share the shephard." (The preceeding was paid for by Maria Callouse, who is a well-known hard person.)

LEO:

Those close to you will desert you in your time of need. It will pay them back for all the times you deserted them in their times of need. Just remember: "a friend in need is a pest."

VIRGO:

Resspe normanse bontoon. Firtabalstr rosnor. Obsilnotu ygr butgt brgitr ksdt esd ygr ibkt iooituybutt U eiylf gsbr gsf yi drr ygr fihht, mi care.

TAURUS:

George Gershwin and you would have gotten along famously, if you had chosen to be born that long ago. We would have all appreciated it. In fact, there is a little collection going around the office to raise enough money to send you back there. Interested? Can you do black-face?

LIBRA:

Exercise great caution. The man next to you is an imposter. He is really a giant frog, part of the subversive organization GFUTCFT (Giant Frogs United To Conquer The World), and

plans to disrupt the entire school. That song he is humming is "We will overcome," frog style. (Where would all the warts be, if it wasn't for us frogs? What could the children play with, if not for us and dogs? We will overcome, we will overcome, how can we the master warts, help but overcome?) (Reprinted by Popular Mechenicas) (Summer re-runs, already?)

SCORPIO:

Hide your head! It is frightening small children and expectant mothers. If possible, comb your hair forward for a while. At least until you die.

SAGITTARIUS:

You are justly afraid of the dark. There are things which lurk in the darkness with your name carved in their teeth. Wear a pair of corduroy underwear so Miz Bear can't damage them. Did you know that you look a lot like Lee Marvin when you don't have any clothes on?

CAPRICORN:

Drain all your vital fluids and replace them with orange juice. The Florida Citrus Growers Assn. assures us (using the royal 'we') (royalty always refers to itself collectively) (so do editors) (that's because they have fleas) that such medical methods will make us feel better and live shorter, a consummation devoutly to be wished. (P.S. There is a love-bug doing something to one of your front teeth. It really does look funny.)
